Talent

We're Recruiting!

Cubed Talent is working with some of the most reputable and fastest growing - Yorkshire based employers to recruit into a number of newly created high quality career opportunities.

Working in partnership with our clients, Cubed Talent has created a VIP career gateway for service leavers/veterans seeking new opportunities.

To help improve opportunities and representation amongst former armed forces people - we are able to guarantee a fast-track 'meet and greet' at Host Company facilities for qualifying candidates.

We now have over 150 newly created roles - across four locations, offering a choice of shifts, contract types and T&C's.

We have summarised just some of the opportunities on offer - we also have had further confirmation of more new opportunities in the New Year.

We are inviting both formal applications and also informal enquiries from former service men and women and those planning to exit service in the coming months.

We're offering guaranteed initial interviews and pre-registration site meet and greets for ex forces personnel.
